## Education Technology

We promote and support the integration of technology into teaching and learning through professional development, policy development, the administration of state and federal funding and strategic planning.

### Professional Development

With the recent passage of Oklahoma House Bill 1576, Oklahoma teachers are required to have professional development covering "digital teaching and learning standards to enhance content delivery to students and improve student achievement." [Go to the EdTech Professional Development Page for resources.](#) ([//sde.ok.gov/sde/instructional-technology-pd](http://sde.ok.gov/sde/instructional-technology-pd))

### Communicate with Others Regarding Educational Technology

If you are an Oklahoma school teacher/librarian/edtech coach/administrator interested in using technology to engage students, [sign up for the OSDE EdTech listserv](http://listserv.sde.ok.gov/scripts/wa.exe?SUBED1=edtech&A=1) (<http://listserv.sde.ok.gov/scripts/wa.exe?SUBED1=edtech&A=1>). This listserv is set up so that you can send messages to the group to ask for help or to provide suggestions for others. Once you have been added to the listserv, you can send a message to the group by sending an email to [edtech@listserv.sde.ok.gov](mailto:edtech@listserv.sde.ok.gov) (<mailto:edtech@listserv.sde.ok.gov>).

### Technology Integration Standards

The International Society for Technology in Education (ISTE) creates standards for the use of technology to enhance education. Oklahoma has adopted the International Society for Technology in Education's Student Standards for the Oklahoma Academic Standards.
