

ISTE Teacher Education Network Award for Excellence in Teacher Education

This award recognizes an outstanding teacher educator who advances the field, demonstrates vision and innovation, and improves learning and teaching.

Only college/university faculty members or PK-12 state, district, or school employees who work directly with teacher preparation and/or professional development programs for educators are eligible to apply for this award.

The following questions will be asked on this award form:

1. (Required) Please upload a current CV or Resume
2. (Required) Please provide a brief biography of yourself and your work (500 words max)
3. (Required) Please provide a letter of support from your direct supervisor or chief of staff representative (e.g. dean, director, principal, district superintendent, etc) that addresses your impact within the organization.
4. (Optional) If desired, provide an additional letter of support. This can be from another supervisor, administrator, colleague, or student.
5. (Required) Provide and describe two artifacts that demonstrate your impact and innovation in the field of educational technology and teacher education (research article, strategic plan, curriculum, project report, etc.).
6. (Required) Please provide a narrative statement that describes your specific role in supporting the effective use of digital technology to support teaching and learning of future and practicing educators. [Please use the evaluation criteria](#) to guide the outline of the narrative. The narrative should discuss pedagogy, scholarship, service, impact, leadership, and professional growth. The following prompts may help invoke specific examples and/or provide structure for the narrative:
 - a. How have your teaching activities included and promoted innovative technology-rich pedagogical practices?
 - b. How have you contributed to the field of educational technology and teacher education through scholarly activities?
 - c. How have you furthered the field of teaching with technology through participation in community or service activities (including educator mentorships and professional development opportunities)?
 - d. How has your work had a significant positive impact on technology use, teaching, and learning in your educational community (whether locally, regionally, statewide, nationally, or worldwide)?
 - e. How have you exhibited leadership in your school and/or professional community with a vision of technology infusion?

- f. How have you engaged in ongoing professional learning activities to continually develop their practice as an evidence-based practitioner?
